EDUCATION

Bachelor of Science (BSc)
University of Balochistan, Quetta, Pakistan
2011 · First Division

SKILLS

FRONTEND
Next.js · React · TypeScript · JavaScript · Tailwind CSS · HTML / CSS · Three.js

BACKEND
Node.js · Express · Python · REST APIs · Zod · SSE streaming · JWT

DATABASE
Supabase · PostgreSQL · Neon · Row-Level Security

AI & AGENTS
OpenAI API · OpenAI Agents SDK · Gemini API · AI Agents · Prompt Engineering · MCP (certified)

TOOLS
Git · GitHub · Vercel · Docker · Stripe · Vitest

CERTIFICATIONS

ANTHROPIC · CLAUDE ACADEMY
- MCP: Advanced Topics Oct 2026
- Introduction to MCP Sep 2026
- AI Fluency: Foundations Sep 2026
- Claude 101 Sep 2026

PIAIC · JAN 2026
- Agentic AI Professional, Level 2
- Model Context Protocol, Level 2
- Prompt & Context Engineering, Level 1

GIAIC · GOVERNOR SINDH INITIATIVE
- Generative AI & Modern Web Development 2025–2026

Credentials can be verified on LinkedIn.

PROFILE

Full-stack AI engineer who builds **production-minded web apps and AI products** with Next.js, TypeScript, Node.js, Python and Supabase. Focused on **AI agents** (OpenAI Agents SDK, OpenAI and Gemini APIs) and certified in the **Model Context Protocol** through Anthropic and PIAIC. Has shipped **8 live projects**, from a support agent that escalates to humans to a multi-warehouse inventory system with Stripe checkout.

WHAT I CAN BUILD

AI Agents & Support Bots · AI Integrations (OpenAI, Gemini) · Full-Stack Web Apps · E-Commerce & Payments · SaaS & Admin Dashboards · Prompt Engineering & Evaluation

FEATURED PROJECTS

SmartDesk AI Customer Support Agent Live demo

Businesses add FAQs, policies and knowledge; the AI agent answers customers within strict scope and **hands the conversation to a human**, with full history, when it can't help. Unanswered questions land in the dashboard so the knowledge base improves over time.

Next.js · TypeScript · Supabase · PostgreSQL · OpenAI Agents SDK · Vercel

WireRoom AI Editorial Newsroom Live demo

Multi-agent pipeline that takes a topic through **research, drafting, editing + SEO, evidence verification and human approval**. Typed agent contracts with Zod validation, retries and timeouts, live SSE progress and a composite quality score.

Next.js · TypeScript · OpenAI · Tavily · Supabase · Zod · Three.js · Vitest

Clinical Evidence Intelligence AI Medical Research Platform Live demo

Research agents query **PubMed, ClinicalTrials.gov and wider literature** in parallel and check every claim against its source text. Surfaces conflicting studies, draws an evidence map and answers questions grounded in a single paper.

Next.js · TypeScript · AI Agents · PubMed · ClinicalTrials.gov · Tavily · Supabase

Assay Prompt A/B Testing Lab Live demo

Compare two prompts on identical test cases with automatic scoring (exact match, regex, JSON validation) and analytics for **pass rate, latency, tokens and cost**. Saves experiment history, adds 3D visualizations and ships in English and Roman Urdu.

Next.js · TypeScript · Supabase · React Three Fiber

Nexora Commerce Inventory Management System Live demo

Multi-warehouse stock, variants and SKUs; orders move inventory **inside one database transaction** so overselling is blocked. Row-Level Security per organization, low-stock alerts, audit log and a Stripe (test mode) storefront with idempotent webhooks.

Next.js · TypeScript · Supabase · PostgreSQL · Stripe

Learnova 3D Interactive Learning Platform Live demo

Course platform with video lessons, graded quizzes, XP and streak tracking and **certificates with unique verification codes**. Instructors can build and publish their own courses.

Next.js · React · TypeScript · Three.js · Tailwind CSS

MORE PROJECTS

- **Physical AI & Humanoid Robotics** – open-source textbook with an AI tutor (ROS 2, Gazebo, Isaac Sim, VLA).
- **TaskFlow** – hackathon todo app with auth, priority tags and Neon PostgreSQL.
- **Marketplace Admin Dashboard** – TypeScript admin panel for a furniture e-commerce store.
